# Camaleonda Leather Sofa Module Right Armrest

The Camaleonda Leather Sofa Module Right Armrest takes its cue from one of the first modular sofas that could be completely reconfigured, which was a revolutionary concept in the 1970s. Despite being 50+ years old, its bold and puffy form looks ultra-modern, making it relevant even in today's design trends. This sofa was way ahead of its time in form, futuristic sculpture, and philosophy.
