Bretagne Bed

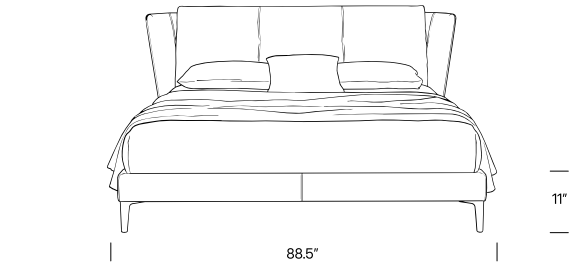
The Bretagne Bed holds all of its detail at the head. A tall shell rises behind the pillows with narrow flat wings at either end, angled forward just enough to frame the bed without enclosing it — seen from the side they read as a thin edge, not a mass. Set inside them is a separate padded leather cushion, drawn in at intervals across its face so the greige leather pulls into shallow dimples that hold the padding in place. Behind, the shell is upholstered smooth and divided by evenly spaced vertical seams, finished to be seen from any side. The base stays deliberately plain: a flat upholstered rail closed with a single horizontal seam, carried on four slim tapered legs in dark metal that splay outward and lift the whole frame clear of the floor.

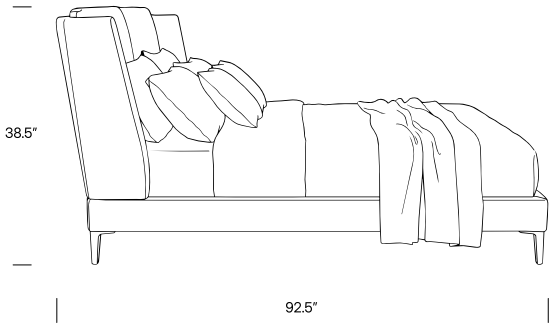
MATERIALS:

Internal Frame:	Kiln-dried timber with steel reinforcement, fully concealed within the upholstery
Headboard:	Tall shell with narrow flat wings at both ends, upholstered front and back
Back Cushion:	Separate padded leather panel with puckered stitch points across its face
Padding:	High-resilience polyurethane foam with a polyester fibre wrap
Base:	Timber rail frame upholstered on all four sides with a single horizontal seam
Support:	Slatted timber base beneath the mattress
Cover:	Warm greige leather, single-needle stitched
Legs:	Slim tapered dark metal legs, splayed, with protective floor glides

FEATURES:

Puckered Leather Cushion:	The back cushion is drawn in at intervals across its face, each point pulling the leather into a shallow dimple that holds the padding without breaking the panel into buttons or squares
Flat Forward Wings:	Two narrow panels rise at either end of the headboard and angle forward, framing the bed and giving it height while staying thin enough to read as an edge from the side
Seamed Headboard Reverse:	The back of the shell is upholstered smooth and divided by evenly spaced vertical seams, finished to be seen when the bed stands free in a room
Splayed Metal Legs:	Four slim tapered legs in dark metal angle outward beneath the rail, lifting the frame clear of the floor and keeping a full-size bed light on its feet
Plain Rail Base:	The base is upholstered flat with a single horizontal seam and no plinth, holding all the detail at the headboard
Open Floor Clearance:	The raised frame leaves the floor visible beneath the bed, making the room read larger and simplifying cleaning
Maintenance:	Wipe leather with a soft dry cloth and condition periodically; keep out of prolonged direct sunlight
Assembly:	Assembly required — legs bolt to the base rail, headboard mounts to the frame





DIMENSIONS:

Bed:	88.5 W x 92.5 D x 38.5 H inches
Base Height:	11 inches
Package Dimension:	90 W x 94 D x 40 H inches
