## Alanda 18" Coffee Table

The Alanda Table draws on the legacy of a design piece that stands out for its bold architectural form. The table continues to be highly desirable decades after its debut in the 1980s. Its geometric base resembles a network of structural frameworks and also reflects a design philosophy that values both form and function. The minimalist glass top adds brightness and allow the sculptural base to take center stage without overwhelming your space.

### MATERIALS:

Frame:	Powder-coated black steel
Top:	10mm tempered glass
Glass Options:	Available in extra-clear or smoky finish
Ferrules:	Plastic and felt glides

### FEATURES:
