Camaleonda Modular Leather Sofa

The Camaleonda leather sofa takes its cue from one of the first modular sofas that could be completely reconfigured, which was a revolutionary concept in the 1970s. Despite being 50+ years old, its bold and puffy form looks ultra-modern, making it relevant even in today's design trends. This sofa was way ahead of its time in form, futuristic sculpture, and philosophy. This version is made with premium aniline leather.

MATERIALS:

Base:	MDF NAF wood fibre
Cushion:	High-resilience polyurethane foam
Upholstery:	Aniline leather
Connectors:	Solid brass rings with stainless steel carabiners
Cord:	Durable polypropylene cord with protective holder cap
