Grand Papilio Chair with Ottoman

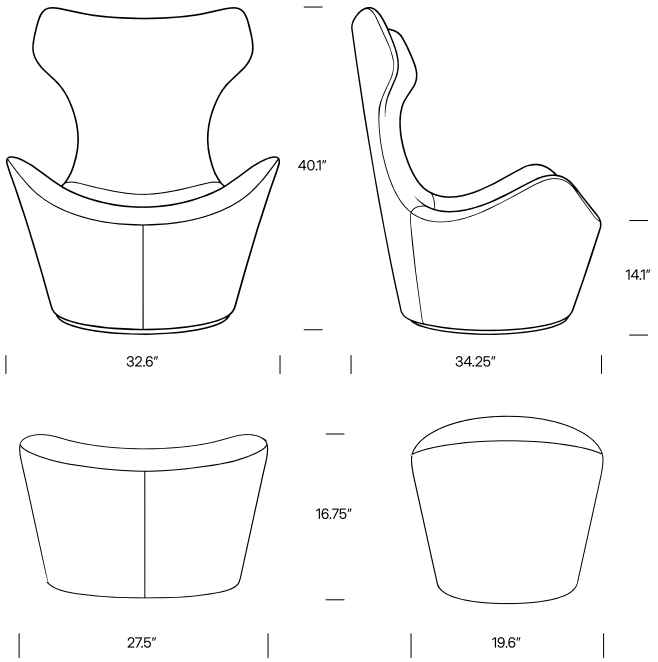

Nothing structural shows anywhere. The chair rises off the floor as one upholstered mass in soft grey suede — narrowing at the waist, flaring wide at the top into two swept wings with a hollow between them. The seat sweeps forward low and deep, something you settle into rather than sit on. Behind, a single vertical seam runs floor to crown, the only break in the surface. A polished chrome ring at the base lets the whole thing swivel in place.

MATERIALS:

Internal Frame:	Moulded structural core, fully concealed within the upholstery
Padding:	High-resilience polyurethane foam shaped to the body, with a polyester fibre wrap
Cover:	Grey suede fabric, single-needle stitched, covering the entire chair with no exposed frame
Seam:	One vertical seam closing the reverse, running the full height
Base:	Polished chrome swivel ring, concealed beneath the upholstered body
Mechanism:	360-degree swivel
Ottoman:	Kidney-shaped stool in the same grey suede fabric over foam, on concealed feet

FEATURES:

No Frame, No Legs:	Nothing structural is visible anywhere — the chair rises from the floor as one upholstered mass, with base, body, seat and wings forming a single unbroken shape
Swept Wings:	The back narrows at the waist and flares wide at the top into two wings with a hollow between them, high enough to rest a head against without enclosing the sitter
Single Reverse Seam:	One vertical line of stitching closes the back from floor to crown, the only break in the surface, so the chair is finished to be seen from behind
Chrome Swivel Ring:	A polished ring at the base lets the whole chair turn in place, so a large piece can face anywhere without being moved
Low Deep Seat:	The seat sits 14 inches from the floor and sweeps forward into a wide shell, for a reclined position rather than an upright one
Soft Napped Surface:	The suede pile catches light differently as the chair turns, so the same grey reads lighter or deeper depending on where you stand
Matching Ottoman:	The same fabric and tapered form in a low kidney-shaped stool, sold to pair with the chair
Maintenance:	Vacuum with a soft brush attachment and brush the nap back in one direction; blot spills immediately, do not soak, and keep out of prolonged direct sunlight
Assembly:	No assembly required — both pieces ship ready to place

DIMENSIONS:

Chair:	32.6 W x 34.25 D x 40.1 H inches
Seat Height:	14.1 inches
Armrest Height:	19.6 inches
Ottoman:	27.5 W x 19.6 D x 16.75 H inches
Package Dimension (Chair):	34.1 W x 35.75 D x 41.6 H inches
Package Dimension (Ottoman):	29 W x 21.1 D x 18.25 H inches
